

Color Palette – Rainbow Row

Inspired by the street in Charleston, South Carolina, this land-locked, short stretch of houses is another collection of vibrantly painted cottages in a color palette that spans the spectrum.

The main body color is to be selected from the appropriate approved color palette. The main body color may not be the same as that of any other residence within two lots to either side, one directly across/behind, or one diagonal. The trim color can be the same or lighter than the body, but not stark white. The accent color is to be a suitable contrasting or complimentary color.
