

Color Palette - Rose Garden Mews Lots 4-15

An eclectic mix of cottages around a small and lush neighborhood park embedded at the center of the surrounding crescent is expressed as a rose-colored ensemble. Houses are painted a range of warm and vibrant tones of red, rose, coral and pink.

The main body color is to be selected from the appropriate approved color palette. The main body color may not be the same as that of any other residence within two lots to either side, one directly across/behind, or one diagonal. The trim color can be the same or lighter than the body, but not stark white. The accent color is to be a suitable contrasting or complimentary color.
