

# Color Palette – Sand Hill

**Sand Hill** body colors shall be airy and ethereal to support the festive activities in the park and to signify the addresses importance as the address with WaterColor's highest elevations at the terminal point of the community's axial spine. The trim color may be monochromatic, tone on tone or a contrasting color. The accent color shall generally be chosen to complement and contrast with the main body while also harmonizing with the main body and trim colors.
