# Pollinator GARDEN TOUR

## PENTAS

Pentas are star-shaped flowers in shades of red, pink, lavender, and white. They bloom year-round in warm climates and can grow 2-4 feet high.

## TORENIA

Torenia are nicknamed the “wishbone flower” for their vibrant colored tubular flowers. Hummingbirds enjoy the sweet nectar of Torenia.

## CAT WHISKERS

This plant has long white or blue flowers with long stamens that resemble cat whiskers. Butterflies, bees, and hummingbirds find this plant attractive.

## WENDY'S WISH SALVIA

Wendy's Wish is known for its showy spikes and clusters of magenta-pink flowers. This hearty plant thrives year-round and is sure to attract butterflies and hummingbirds.

## PORTERWEED

This low-growing plant is often found in coastal dunes. It can flower year-round and its a nectar source for many species of butterflies.
