

Color Palette – Pine Crest Lots 22-31

The main body colors for the ten houses (lots 22-31) on either side of the small square shall all use a special palette of colors based on muted tones of grays, greens, and browns.

The main body color is to be selected from the appropriate approved color palette. The main body color may not be the same as that of any other residence within two lots to either side, one directly across/behind, or one diagonal. The trim color can be the same or lighter than the body, but not stark white. The accent color is to be a suitable contrasting or complimentary color.
