

Color Palette - Cerulean Place I and II and Town Center East

The main body colors of these homes are in the same range of colors as Lake District but with a brighter and more open palette.

The main body color is to be selected from the appropriate approved color palette. The main body color may not be the same as that of any other residence within two lots to either side, one directly across/behind, or one diagonal. The trim color can be the same or lighter than the body, but not stark white. The accent color is to be a suitable contrasting or complimentary color.
