

Color Palette – Town Center West

The westernmost grouping of 5 houses along County Road 30-A are painted in a range of off-white colors.

The main body color is to be selected from the appropriate approved color palette. The main body color may not be the same as that of any other residence within two lots to either side, one directly across/behind, or one diagonal. The trim color can be the same or lighter than the body, but not stark white. The accent color is to be a suitable contrasting or complimentary color.
